

# One in 100 Australians are autistic.

**This World Autism Awareness Day,  
show your support by getting  
your workplace involved.**

# Register your workplace to support World Autism Awareness Day 2017.

**250,000 Australians are living on the autism spectrum, yet to most of us what that actually means remains very much a mystery.**

So let's start a conversation and learn about autism together, by getting your workplace to host a gold coin event as part of Amaze's inspiring Spectrospective event during April 2017.

Dynamic, engaging and informative, Spectrospective 2017 enables us all to gain a better understanding of what living with autism is really like.

And by participating, your workplace will be sending a powerful message of support to the 250,000 Australians living on the spectrum, for a more inclusive future for all.

**Register here:**
